
Notepas Crack

Notepas Crack Torrent Free [Win/Mac] (Latest)

Are you tired of using too many different programs for text document creation, coding, highlighting syntax and more? Notepas is a powerful text editor that supports almost every format for programming and you can use it to write HTML, CSS, XML, Pascal, rtf, java, php, sql, html, xhtml, css and more. 100% software solution; no compromises or 3rd party components Tightly integrated into Windows; it doesn't require external resources and it doesn't use any 3rd party components, not even a popup blocker. Modular architecture, written from the ground up to be completely functional The software was written in Delphi and uses multiple modular components for easy maintenance and development of new features. This gives you the flexibility to customize the application. It's simple to use but has all the important and advanced tools you'll need for your text documents It features multiple tools for coding, including syntax coloring, block coloring, character coloring, text formatting and line numbering. You can set line numbers up to 9999999 and you can insert comments. You can customize the font type, size and style, it supports left and right justification and automatic indentation. Pascal strings, Unicode and all other features It comes with powerful functionality that supports all of the features you'll need to create, edit and view Pascal strings. It's easy to use and supports Unicode characters to support your international users. Save and export documents to the list of supported formats It lets you change text to lower or upper case, it supports Pascal strings, UTF-8 and you can use multiple text encodings. You can use a document outline and it lets you use multiple markers to create lists. You can also add a table of contents and table of used items. Change text and properties using several commands It has multiple configuration options and it lets you customize certain aspects of the program to your liking. It supports multiple themes, and you can completely customize the appearance of the application using the form settings. You can add and remove tabs, you can create resizable tabs and add multiple toolbars. It can be set to show all notes in a list, or just the list. Mark comments using single, double and hash signs and insert more than one comment per line. More tools You can move your cursor by holding down the shift key and use the arrow keys and page up and down. You can control the keyboard shortcuts directly in the form.

Notepas Crack+
