See top-rated videos and look at. 1080p FULL HIGH QUALITY.Q: Run a function after inside a block is run I have this issue : A function run called setup. This function run a setup script (it delete the previous folder creation)

Let's say it runs something like this : `rm -rf /var/lib/mysql/maildb/ mkdir -p /var/lib/mysql/maildb/` I have a lot of functions, I want to run when those functions has been started. For example, setup runs fine. But I want to execute 2 more functions for the same, but the second function doesn't run (because the first one run). So I think is because of the loop and the function. I tried something like this : `function setup { rm -rf /var/lib/mysql/maildb/ mkdir -p /var/lib/mysql/maildb/ } func_run= 6d1f23a050`
